Vertical Transportation

Mitsubishi Electric has been remaining a leader in the vertical transportation market since entering the business in 1931, with their motto 'Quality in Motion'. Mitsubishi Electric NexWay, a high speed premium elevator, is designed to keep pace with the vertical growth of cities where buildings soar to ever greater heights. NexWay guarantees high levels of passenger safety and comfort.

SAFETY

Reliable Features

Mitsubishi's reliable safety system ensures that doors are clear to open and close, by using Multi-beam Sensor and Safety Door Edge. The elevators are also equipped with emergencies functions like power failure, fire or earthquake. It automatically moves to nearest floor using building's emergency power supply and opens the doors for passenger to evacuate.

SECURITY

Secure and Ease

For your ease, Mitsubishi's elevators are equipped with auto destination for tenants by simply tapping your unit card onto the card reader. To feel more secure, the elevators are connected to two-way Phone System which allows communication between passengers inside the elevator and the building personnel.

BRAND OVERVIEW

Cooling System

Since 1924, Daikin have become a leading manufacturer of air conditioning equipment. They invented a multi system AC since 1928 and patented VRV System in 1982. Inverter air conditioning technology, which Daikin offers, is not only comfortable but also energy efficient and environmental friendly.

FEATURES

Hidden and Sleek

For a better airflow and a clean looking interior, Anandamaya installed a duct type indoor units, that's hidden inside the drop ceiling towards the room. The air conditioners provide wide airflow coverage for effective operation even to the corners of large spaces. It also equipped with a feature that prevents uncomfortable drafts from blowing directly onto the body.

FEATURES

Optimizing The Space

Daikin's multi split AC system requires only a single outdoor unit to maintain optimum comfort in up to 5 indoor units and up to 14 indoor units for VRV system, providing more functional space. It also minimizes outdoor heat, hence longer compressor life.

MULTI-SPLIT SYSTEM IS AVAILABLE IN TOWER 2 & 3
VRV SYSTEM IS AVAILABLE IN TOWER 1
